Together

Let's Deliver Reliable, High-Quality Simulator Training

Higher Availability | Stronger Compliance | Predictable Operations

Training Centre Challenges

- Simulator fleet misaligned with market demand.
- Audit findings jeopardize the operation.
- TDMs customer support is slow to respond, with limited accountability.
- Simulator downtime disrupts training schedules and revenue flows.

Why SLAM

Industry Experience

17+ years in flight-simulation leadership.

Trusted Partner

Stabilize operations, maximize ROI and strengthen processes.

Global Industry Network

Global network of OEMs, suppliers, and specialists.

Our Services

Simulator Fleet Strategy & Market Alignment

Ensure your fleet matches operator needs, protecting utilization, pricing power, and long-term ROI.

Simulator Device Sourcing, Brokerage & Acceptance Support

Define requirements, run tenders and oversee acceptances ensuring quality and value.

Regulatory Compliance & Qualification Support

Independent guidance on EASA/FAA qualification readiness.

Spare Parts & Vendor Alignment

Streamline vendor networks, improve response speed, and create predictable costs.

Simulator Fleet Lifecycle Advisory

Maximize availability and ROI across your simulator fleet.
